Bring your services to new and unique locations

We design and manufacture mobile shelters that let you grow your business.
Endless opportunities

**Space**
Three times the space of a standard solution
- 25 m² of workspace
- Higher capacity
- Various opportunities for use

**Comfort**
The look and functionality as requested by you
- Weatherproof up to -20 °C
- Great ventilation
- Easier access

**Mobility**
15 min setup time
- Use your own car to transport the trailer
- Customisable for various towing vehicles
- Suitable for category B vehicles
- Certified and compliant

**Return on investment**
The least expensive way to expand your business
- Increases service coverage
- Low maintenance costs
- A different and eye-catching marketing vehicle

We manage your idea to a final product

Why us?

- Flexibility
- Reliability
- Speed and accuracy

Customer satisfaction

Manufacturing capacity and technology
- 2500 m² of production space
- Modern equipment
- Customised production facility

Competence and experience
- 10 years in business
- Experience in the military, rescue and medical fields
- Highly qualified team

Design → Understanding and defining → Pricing

Production → Training → Supplying → Maintenance

Why us?
## Basic 3-in-1 truck

**The truck**

- Gross vehicle weight: up to 5200 kg
- Load capacity: up to 2600 kg
- Additional information: automatic leveling system

**The 3-in-1 shelter**

- Tare weight: 1700 kg
- Total length of shelter: 5756 mm
- Height of shelter from ground: Approx. 3000 mm
- Insulation: 40 – 80 mm
- Width of shelter in transport mode: 2312 mm
- Width of shelter in open mode: 5852 mm
- Floor area in transport mode: ~9 m²
- Floor area in work mode: ~24 m²
- Additional information: 4 windows, frosted glass, lightweight stairs, aluminium external door with standard lock
Basic 3-in-1 trailer

The trailer

<table>
<thead>

Mobile Skin Cancer Diagnostic Cabinet

**Description:**
The Mobile Skin Cancer Diagnostic Cabinet allows skin checkups to be carried out, so that possible changes are discovered early. The laterally expandable solution allows two workspaces to be set up, with a combined area of 25 m². In transport mode, a storage space of 5500x1600 mm is retained where all necessary equipment can be securely fastened. The shelter is attached to a trailer with a gross vehicle weight of 3500 kg.

**Capabilities:**
The mobile booth for diagnosing skin tumours is equipped with modern skin tumour diagnosing devices.

**Technology and equipment:**
- Floor area 25 m²
- Generator 2 kW + 1 kW UPS
- Air heat pump
- WIFI
- Modular furniture
- 24 V LED lighting panels
- WC
OÜ MDSC Systems
